**County of San Bernardino  
Facilities Management  
200 South Lena Road  
San Bernardino, CA 92415-0055  
March 2003**

## I. INTRODUCTION

### A. Purpose:

The San Bernardino County General Fund Utilities budget funds the cost of natural gas and liquid propane gas, electricity, water, sewage, refuse disposal, diesel fuel for emergency generators and other related costs for San Bernardino County (County) owned and some leased facilities. Since the statewide energy crisis last year, the utility industry has become more complex and unpredictable. Last year utilities costs increased over \$3 million even though energy conservation efforts yielded a 14% decrease in electricity usage. As a result of this instability, the County is closely reviewing all utility account information, verifying the physical hook ups, and reviewing the rates the County is being charged by utility companies.

The Facilities Management Department is requesting proposals from firms with experience with utilities, particularly in the area of utility billings and energy conservation to analyze the existing Facilities Management General Fund Utility accounts. Firms will be expected to:

1. Verify service addresses and billing account information;
2. Review utility rates;
3. Verify the correct rate is being charged;
4. Make specific recommendations to reduce the cost of utilities to the County of San Bernardino;
5. Develop actual annual cost and usage amounts for each utility; and,
6. Develop and recommend a baseline fiscal year budget for each utility;
7. Recommend ways the County should monitor utility costs.

The successful proposal will outline a systematic approach in evaluating, reporting and presenting recommendations to meet the needs of the County as outlined in this document.

### B. Minimum PROPOSER Requirements

All PROPOSERS must:

1. Clearly possess the administrative, fiscal, organizational, and auditing skills to fully provide and manage the proposed services within the envisioned time frame. Team members with experience in the utility industry and a working knowledge of the rate structure are preferred.
2. Have a representative in attendance at the Mandatory Proposal Conference.
3. Meet other presentation and participation requirements listed in this RFP.
4. Have no unsatisfactory record of performance with any public agency.
5. Provide the names, addresses, and telephone numbers of at least three references that have been served by your firm in a capacity similar to that described in Section IV **Scope of Services to be Performed**.

### **C. Preferred Proposer Knowledge/Experience**

Knowledge of California laws, regulations and procedures relative to utility billings, energy usage and public utilities is highly desirable. Firms demonstrating team members with utilities background and a knowledge of County or local government systems will be given preference in the selection process. Proposers must have the ability to visit remote County locations and verify utility hook ups and services.

### **D. Mandatory Pre-Proposal Conference**

#### IV. SCOPE OF SERVICES TO BE PERFORMED

##### A. Examine Existing Utility Accounts

The Facilities Management General Fund budget is currently responsible for a variety of utility accounts at various locations throughout the County. Attachment D to this RFP lists the locations and utilities in use at these locations effective November 2002. The number of accounts will vary from day to day as hook ups are added or deleted. The Proposer will be expected to work from a similar list generated in May 2003. Attachment E lists the various utility companies and the utilities provided and attachment F is FY 2002-2003 budget data. These attachments are provided to give an estimate of the magnitude of this task.

The Facilities Management budget is currently responsible for approximately 870 utility accounts broken down as follows:

<u>Utility</u>	<u>Number of Accounts</u>
Gas	170
Water	131
Electricity	440
Disposal	107
Sewer	13
Miscellaneous	5

Review all existing accounts for the following:

1. Verify service address and confirm the account information is correct.
2. Review rates and rate structure, as well as usage amounts, to ensure the County is paying the appropriate tariff.
3. Make recommendations regarding changes the County can make to lower rates being charged.
4. Make recommendations regarding how the county can recoup utility expenses from other county budget units.

##### B. Develop Baseline Usage and Cost Data

Review and consolidate existing account information and develop actual baseline usage and cost data information. The purpose of this cost data is to provide the County with management tools to monitor existing utility usage and forecast future usage for budget development purposes. Specifically, develop cost data information for gas, electricity, water, sewer and trash disposal. Tasks to be completed include:

1. Develop actual annual cost and usage amounts for each utility.
2. Develop a methodology for forecasting and building future budgets.
3. Develop a baseline fiscal year budget for each utility.

##### C. Develop Recommendations for Monitoring Usage and Rates

Recommend ways the County should monitor gas, electric, water, sewer and disposal usage and costs. These recommendations should identify the ten largest users for each utility and ways to monitor these users. Proposers should pay careful attention to this area, perhaps citing ways other organizations have been assisted in developing monitoring tools. Ways to effectively monitor smaller users should also be addressed.

If Proposer has no employees, it may certify or warrant to County that it does not currently have any employees or individuals who are defined as "employees" under the Labor Code and the requirement for Workers' Compensation coverage will be waived by the County's Risk Manager. With respect to Proposers that are non-profit corporations organized under California or Federal law, volunteers for such entities are required to be covered by Workers' Compensation insurance. ## Attachment F – 2002-2003 Utility Budget

### BUDGET UNIT: UTILITIES (AAA UTL)

#### I. GENERAL PROGRAM STATEMENT

The San Bernardino County Utilities budget funds the cost of natural gas and liquid propane gas, electricity, water, sewage, refuse disposal, diesel fuel for emergency generators, and other related costs for county owned and some leased facilities.

#### II. BUDGET & WORKLOAD HISTORY

	<b>Actual 2000-01</b>	<b>Budget 2001-02</b>	<b>Actual 2001-02</b>	<b>Budget 2002-03</b>
Total Appropriation	14,203,852	14,905,801	15,931,125	14,503,536
Total Revenue	<u>(40,510)</u>	<u>20,000</u>	<u>167,073</u>	<u>-</u>
Local Cost	14,244,362	14,885,801	15,764,052	14,503,536
<b><u>Workload Indicators</u></b>				
Electric	10,300,000	10,900,000	10,017,413	10,250,000
Gas	800,500	846,000	951,338	846,000

Disposal	830,800	879,000	1,215,162	879,000

Actual expenditures exceeded budget as a result of an increase in costs in electrical, disposal, and water/sewer surcharges that was partially offset by gas utility savings.

#### III. HIGHLIGHTS OF BOARD APPROVED CHANGES TO BUDGET (see attachments for detailed changes)

##### **STAFFING CHANGES**

None

##### **PROGRAM CHANGES**
